Charting a more inclusive course: Welcoming our partners as members.

To all my CRYC friends,

I am delighted to share some truly heartening news from our recent Board of Directors meeting. In a unanimous decision, the Board voted to define our membership categories to explicitly include spouses, domestic partners, or significant others with whom our primary members cohabit.

This decision marks a significant milestone in our Yacht Club's history, reflecting our commitment to fostering a stronger, more connected, and truly inclusive community.

For many years, while our partners have been an integral part of our club's social fabric and often active participants in our events, including volunteering countless hours, they have not held formal membership. This update rectifies that for those members who choose to participate, ensuring that those who share our lives and our passion for yachting are fully welcomed into our club family.

This expanded definition of membership will grant our spouses, domestic partners, and cohabiting significant others the rights and privileges of membership. This includes voting rights (one vote per household), access to all club facilities (previously, partners were required to be accompanied by the member on club grounds), inclusion in membership directories, and eligibility to chair committees or run for the board (with the provision that only one person per household may hold a board position at any given time).

We believe this change will strengthen the bonds within our existing membership and encourage even greater participation and engagement across the board.

This decision was made after thoughtful consideration, much deliberation, and the guidance of independent legal counsel, and it reflects the evolving landscape of our society and the diverse nature of our membership.

We recognize that our partners are integral to our lives, often share our love for the water, and contribute significantly to the vibrant spirit of our club. It is only fitting that our membership structure formally acknowledges their importance.

We have a straightforward process for current members wishing to add their spouse, domestic partner, or cohabiting significant other to their membership. All you need to do is contact our Rear Commodore Joe Tanner at jtanner@tcgstores.com and inform him of your desire to add your partner to your membership. Joe will take it from there.

The Board will work diligently to implement this change smoothly, and our board and staff are ready to assist you. We anticipate that these updates will be reflected in our membership records promptly.

Please join me in celebrating this progressive step forward. I am confident that this enhanced inclusivity will enrich our club and strengthen the camaraderie we all cherish.

I look forward to seeing even more of our partners actively involved in all aspects of our Yacht Club. Together, we will continue to navigate a course of growth, unity, and shared passion for the water.

ATTENTION CRYC MEMBERS

GATE UPDATE

STARTING TUESDAY, MAY 13TH, THE ENTRY GATE WILL ALLOW ONLY ONE VEHICLE THROUGH AT A TIME.

PLEASE DO NOT TAILGATE OR ATTEMPT TO SPEED THROUGH THE GATE IF YOU DID NOT OPEN IT.

WE KINDLY ASK THAT YOU BE MINDFUL OF THIS CHANGE WHEN ENTERING THE CLUB.

FIRST LADY

TIFFANY LANCE

"Spring: a lovely reminder of how beautiful change can truly be." ~ Author unknown.

As the days lengthen and the promise of warmer breezes fills the air, our club is abuzz with the anticipation of Opening Day. For me, this particular spring carries an extra layer of personal joy and a profound sense of belonging.

For many years, I've proudly stood by Kirk's side as his first mate within the Columbia River Yacht Club community, happily contributing my time and energy to our shared passion for boating and this wonderful club. While those years were fulfilling, this year marks a significant and deeply appreciated change: I am now officially a member of the Columbia River Yacht Club in my own right.

While I don't anticipate dramatic shifts in the day-to-day activities, this recognition as a full member resonates deeply. It's a wonderful feeling to be acknowledged not just as a participant and volunteer, but as an integral part of the fabric of this club we all cherish. Thank you to everyone who made this transition possible.

Speaking of new beginnings, the arrival of spring brings with it the vibrant energy of Opening Day! I eagerly look forward to celebrating the start of another boating season with all of you. Please remember to don your best Bristol attire as we mark this special occasion together. The opening ceremony and breakfast will be at the club, followed by the parade, and then a fabulous "White Party" in the clubhouse with fabulous food and live music. It's sure to be a day to remember!

Looking ahead, one of my favorite events on the club calendar is the Mother's Day brunch. As many of you know, my greatest joy in life is being a mother, and this day provides a beautiful opportunity to celebrate the incredible mothers within our club community. I can't wait to share in the warmth and camaraderie of this special gathering.

Finally, I want to extend a heartfelt thank you to everyone who contributed to making our recent Easter brunch such a resounding success.

The food was truly exceptional, the staff were outstanding, and to the volunteers, who worked tirelessly to make the club look festive and welcoming, I cannot thank you enough. And of course, a special round of applause for the Easter Bunny, who brought so much joy to the children with his visit and the epic Easter egg hunt!

As we embrace the new season and the exciting events ahead, I am grateful for this club and our wonderful friendships. Here's to another memorable year at the Columbia River Yacht Club.

Joy is in the Journey!

EDITOR

ANGELA ENLOE

Well, BLOW ME DOWN, SHIVER ME TIMBERS, FULL SAILS AHEAD!

Welcome to the new CRYC family membership!

I congratulate the board of directors for their brave move in stepping our club forward with family membership. This is a long-time coming and way overdue move. Our club has always stood up for family and been a wonderful support for those in times of need or just a helping hand. Why would we not want to represent the whole family as members and treat women as equals?

Bringing younger, vibrant new members to our club requires treating all family members equally. We gain new members and grow the club by developing ourselves and maintaining an open-mindedness to look for and listen to other ideas. The club's growth is a huge step forward. From THIS Woman, I say THANK YOU! Thank you for considering your partner as part of who you honor. I know my husband, Dan, honored me, and he would be the first to step forward and say Good Job, Men!

I was hopeful that "I" would see this day, and grateful that I am here to witness it. I also think of those men 8 years ago who tried this family membership and failed to accomplish it. Your efforts did not go unnoticed, and we appreciate the sacrifices you made during all the backlash. I'm sure your efforts helped in some way to accomplish this today.

Our founding members formed the club in 1946, 79 years ago. I would like to believe that they are proud of the accomplishments that have been made. We are not against change and would be grateful as we look for ways to stay relevant and in tune with the times. They wanted the club to be successful all these years after the hard work, money, and time they invested in it. Yes, our history and traditions exist, but if the club failed because of the unwillingness to change, that would be sad, and our founders would be disappointed in us.

Thank you, CRYC board of directors!

We all thank you!

Legacy Membership

Did you know CRYC offers an exclusive deal for members' children? If you or somebody you know has kids interested in joining the club, they can apply with a discounted initiation fee of just \$500.00.

Reach out to the office or our Membership chair, Francisco Rivera, for an application!

Office: (503) 289-6561

Francisco: (503) 358-2824

REAR COMMODORE

JOE TANNER

I am privileged to serve CRYC as Rear Commodore and on the Board. It is an added privilege when the Board steps up to difficult decisions, such as spending \$648,486.00 to replace the fuel system and implement the “Family Membership” Policy, which I am writing to you about today.

I served as Membership Chair for the past two years and was often asked about the club’s policy concerning women and family membership. I am also a member of the Portland Yacht Club, and I am often confronted with the comment that CRYC is a “Men’s Club.” While that may have been true in the past, I do not think it is true today. I see the policy just adopted by the club as a “change whose time has come.”

It is my duty to explain the new policy to all members, to let you know what has changed and as importantly, what did not change, and why the Board felt strongly that this action will serve CRYC well in the future.

THE BOARD OF DIRECTORS UNANIMOUSLY ADOPTED A “FAMILY MEMBERSHIP” RULE

- Each member may, if they choose, “designate” an adult person with whom they have a “spouse or partner relationship” and “share” their CRYC membership with that person.
- The “family member” must be an adult spouse, registered domestic partner, or partner in a committed cohabitation relationship. It cannot be a child, relative, or friend.
- That “designation” may be cancelled at any time by the admitted or designated member.
- The plan adopted is similar to the long-standing policy of the Portland Yacht Club.
- The Board obtained an independent legal opinion (from one of the largest law firms in Portland) on all aspects of the action, including its consistency with CRYC’s Articles, Bylaws, House and Moorage Rules, and practices.

WHAT IS NEW

- The new “family member” may be on club property alone and invite guests.
- Participate in the discussions and jointly vote (but only one vote/family).
- Be a committee chair or elected member (but only one/family can be an elected member official at any one time)
- The member may now authorize direct family members to be on club property without them, i.e., adult children may now enter and use or work on the member’s boat or boathouse without the member being present.
- It allows family members to designate who will continue with the membership if the family relationship ceases. Essentially, it extends the current survivorship membership as an option for non-married partners when one passes away.

WHAT DOES NOT CHANGE

- The dues do not change (only one due).
- This has no effect at all on Men’s Night.
- This has no effect on LAC activities or events.
- Only the original member can own water.
- The original member is still responsible for all family members, whether or not they are onsite at the club with them.
- This changes no other membership rules whatsoever.
- The Board does see this as a meaningful change. It will help spouses and partners feel equal and welcome at the club, and it will engage more members in volunteering, contributing, and having fun at our events. This matches our club’s desire to be a family club.

Rear Commodore's Article Continued..

WHY ANY CHANGE AT ALL

- The last long-range plan found CRYC to be the only yacht club in the area without a family membership, which was found to be a deterrent to attracting new members.
- Members enjoying the club and the revenue from those members are the club's lifeblood.
- CRYC's peak membership was in 2003 with 352 total members (262 full dues-paying members) and has declined ever since. Today, the number of full dues-paying members is only 211, and the total number of members (including Salty Dog, Senior, Honorary, etc.) is about 279.
- We have lost 75 members since 2003 and have lost members net over the past three years. The Board believes this policy is a crucial step to increasing membership.

ACTIONS YOU CAN TAKE

Send an email, letter, or written message to the

- Club's Rear Commodore, Joe Tanner -

jtanner@tcgstores.com

and/or

- Club's General Manager, Spencer Spargo -

spencer@cryc.com

State your wish to:

1. Designate a spouse or partner under the Family Membership, and/or
2. Authorize family member(s) to be on-site without you. Any clear notice will be honored; however, the office or I will email a typical form to anyone who requests it, and the office will have forms in hard copy.

Copies of the new Rule and the related Resolution that were also unanimously adopted by the Board are available at the office, or I can email you copies.

CRUISE NEWS

TRACY ROBINSON

By the time you get this, we will have just wrapped up with Drango's barefoot cruise, "The Commodore's Round-Up," in Astoria during the Crab, Seafood, and Wine festival. This one always has a nice mix of boaters and drive-in attendees!

We have an awesome upcoming Memorial Day Cruise planned for you. Due to issues beyond our control, we had to pivot our plans from Schwitter dock to a Cruise Inn at A dock. You can expect the crew to work hard to provide games, live music, and a dinghy and/or land cruise to a local new eatery. We hope you will join us for some '80s-style fun!

Coming up next, mark your calendars and keep an eye on the blast for details on our Father's Day Cruise at RiverPlace, June 20-22. This will be a fun event as well!

We always seek good volunteers to help work or lead upcoming cruises. No experience required! Please reach out if you can help.

Happy Cruising!

Member Article Written By Terry Glenn

Shared Family Membership

The Board of Directors has adopted a broadened definition of “Member,” allowing the option to include a spouse or partner in a joint “shared family” membership. Couples who choose this option may now share the privileges and responsibilities of a single membership, including voting and holding elected office. Existing members can remain as “individual” members or opt to become “shared family” members. Prospective members will be offered this choice at the time of application.

CRYC was established as a men’s club in an era when that was very common. Women have been welcomed as “members” for nearly 20 years, but we have continued interpreting “member” as a single individual. As it turns out, our governing documents don’t specifically define “member” as an individual; they were just interpreted that way, which allows the Board to modify that interpretation by resolution.

This has long been a controversial topic. For many, individual interpretation is nostalgic and ingrained in the fabric of CRYC. For others, it is an antiquated notion. More importantly, prospective new members are often repulsed by the expectation to choose a dominant individual in what should be an equal household. Whether factual or not, this idea perpetuates the belief that CRYC is a “men’s club,” which is unattractive to younger couples who are accustomed to equality.

For existing members, you remain an “individual” member by default. If you would like to share your membership with your spouse or partner, you must designate in writing to the Rear Commodore (via the office). You may also designate who will retain the CRYC membership should the relationship end. If no designation is made, the Board would decide who to keep.

If you elect to share your membership, you will have one vote as a couple. Either may be elected to the Board, but only one at a time.

Spouses have previously served on committees, but the change clarifies that either may serve as committee chairs. For many, there won’t be many practical implications.

For those not legally married, shared family membership ensures your partner continues as a member in the event of your demise, avoiding a new initiation fee applicable in the past.

The new rule also allows members to authorize their family members to be on-site without them for up to one year. The member remains liable for all actions of the other family members.

Together, these actions encourage robust family participation at CRYC.

BOARD MINUTES OVERVIEW

April 17th, 2025

The full meeting minutes can be found in the link tree.

Commodore Lance called the meeting to order. Approximately 21 members attended either in person or virtually. All board members were in attendance or provided a proxy.

STANDARD REPORTS:

- ☐ The March Board minutes were approved.
- ☐ The February financial report was presented. The March financial report will be presented in May, and approval of both the February and March financial statements was delayed until May.
- ☐ Commodore Kirk presented a brief report on measures being taken to allow the Paddlefish to be used this cruise season, with a haul-out scheduled for the fall.
- ☐ Commodore Kirk announced the establishment of an ad hoc Sunshine Committee to be chaired by Gloria Almroth. The Board ratified that announcement by a unanimous vote.
- ☐ Mr. Spargo reported that the boathouse fire safety inspections have been completed, and that letters to members and other corrective actions are underway.
- ☐ Mr. Spargo reported of excessive contaminated fuel dumping in the oil collection containers in the trailer storage lot. Certain corrective measures were discussed.
- ☐ Mr. Spargo requested an amendment to the House & Moorage Rules, which was adopted by the Board. Henceforth, a fire detection system will be required in any "enclosed area" of a boathouse, not solely in an "apartment".
- ☐ Vice Commodore Sutherland reported on the progress of the fuel system replacement. It appears the project is on schedule and on budget, and that the contractor is doing a very good job.

ACTION ITEMS:

- ☐ A resolution and House & Moorage Rule change related to family membership was moved, seconded, discussed at length, and unanimously adopted. Copies of the resolution and rule change are available at the club office.
- ☐ Membership Committee Chair Francisco Rivera recommended to the board that Max McCuddy and Kirk Hall be approved as Social Members, and that the resignation of Stephen Blum and Dave Burton be approved. The recommendations were duly moved and seconded and approved unanimously.
- ☐ Moorage Chair Matt McCuddy recommended to the board that the sale and transfer of the water rights to slip C-07 from Joe Tanner to Melvin Cooper, and the water rights to slip E-11 from Stephen Blum to Joe Tanner be approved. The motions were approved unanimously.
- ☐ Steve Strong requested an additional \$4,000 for concrete work and other improvements out to the peninsula, with the help of member volunteers. A motion to approve the additional amount was unanimously approved.

ADJOURNMENT: The meeting was adjourned by the Commodore. The next board meeting will be held on May 15, 2025.
